

CAREERS IN COMPUTING FAIR 2025

Thursday 30 October
15:00 - 17:30

Mathematical Institute
OX2 6GG

www.careers.ox.ac.uk/ccf

Welcome to the Careers in Computing Fair

Meet recruiters, attend presentations, explore jobs, and find out about the wide range of opportunities in the IT and computing sector.

The graduate employment record of Oxford's undergraduate and postgraduate students is exemplary. However, we often hear from employers that they find it hard to meet our students, and often hear from students that they find the process of making career choices challenging.

As an Oxford student with skills in computer science, there are many organisations keen to recruit you! We hope that this event gives you the chance to meet employers and explore your career ideas.

www.careers.ox.ac.uk/ccf

Top tips

Use this booklet to plan your fair tactics:

- Check who is attending and read their booklet entry before you speak to them.
- Plan some questions to ask. For example: what are the pros and cons of their work? or, what tips can they give you to increase your chances of being selected for work experience or employment?
- Be keen and attentive – first impressions count!
- Talk to as many people as you can.
- Remember to record who you spoke to and key points of your conversations.

Read more on how to **[make the most of a careers fair](#)**.

Anima

Anima is a Care Enablement platform that serves as the operating system for healthcare teams, automating front and back office workflows. Clinics use us to get optimal care plans to patients 10x faster, and collaborate in our platform for tasking and AI-driven document processing. We were prescient in predicting the importance of active learning and the current MoE architectures powering LLMs today.

Over the last 18 months, we've grown from \$1.5m to \$15m in revenue and we've resolved over 4.3 million patient cases on our platform, including 3.1 million medical problems, **and we estimate that Anima has saved over 8600 lives.**

Anima now serves 4 million people in the UK, or 7% of the UK population and is growing super fast (on track for \$20m revenue by EOY). Our true purpose and mission, as per the patent, is to build the next era of human wellbeing - powered by deep phenotyping and personalised medicine. If we succeed, Anima could become the most valuable company on Earth and unlock one of the most valuable technologies for humanity.

Bending Spoons

Meet Bending Spoons! Bending Spoons. Curious name, right? It's from The Matrix, where the hero discovers that what seems impossible often isn't so. In 2013, when we were a punchy little startup, the parallel was fitting. Today, it's more appropriate than ever.

That five-person startup has become a leading tech companies—with 500+ bright, inspiring, and hard-working Spooners from over 35 countries. Our category-leading products—including Evernote, Issuu, Meetup, Remini, Splice, StreamYard, and WeTransfer—have been downloaded over a billion times and delight millions of people every day.

Plenty has changed since our early days. But our mission remains steadfast. We're still going all-out to make an enduring positive impact on our customers, on our fellow Spooners, and on society at large. And we've only just crossed the starting line on what we want to accomplish.

An impossible mission? Maybe. We're all in on finding out.

Don't miss out on the chance to talk to us directly and learn more about our company, our values and opportunities for students and recent graduates!

P.S. Head to [bendingspoons.com](https://www.bendingspoons.com) to learn more about us, our products, and our open positions.

Find out more at: www.jobs.bendingspoons.com

Brevan Howard

Brevan Howard Asset Management is one of the leading absolute return/hedge fund managers, overseeing assets on behalf of institutional investors from around the world, including pension funds, endowments, insurance companies, government agencies, private banks, and fund of funds.

Brevan Howard was founded in 2002 and launched its flagship global macro strategy in April 2003. The firm currently manages over \$35bn and engages predominantly in discretionary directional and relative value trading in fixed income, FX markets, and equities. BH Digital, a division within Brevan Howard that manages crypto and digital asset strategies was launched in 2022.

The firm's main hubs are in London, Jersey, Geneva, New York, Austin, Hong Kong, Singapore, and Abu Dhabi.

Find out more at www.brevanhoward.com/careers/

Cisco

We connect everything – people, process, data and things – and we use those connections to change our world for the better.

We innovate everywhere - From launching a new era of networking that adapts, learns and protects, to building Cisco Services that accelerate businesses and business results. Our technology powers entertainment, retail, healthcare, education and more.

We benefit everyone - We do all of this while striving for a culture that empowers every person to be the difference, at work and in our communities.

Colourful hair? Don't care. Tattoos? Show off your ink. Like polka dots? That's cool. Pop culture geek? Many of us are. Be you, with us. #WeAreCisco

Find out more at <https://jobs.cisco.com/jobs/Home>

Da Vinci

Da Vinci is a proprietary trading house founded in 2015 and specialised in solving market inefficiencies, identifying opportunities based on volatility arbitrage and delta1 strategies and providing liquidity to the markets. We are headquartered in the home of the world's first stock market, Amsterdam, and we have offices in Miami, Hong Kong and Mumbai. Today, we trade on the most prominent exchanges across Asia and the US. Our vision is set on sustainable growth and collaboration across teams and offices.

We always keep our work smart and innovative and are building a team of trading enthusiasts. The key to our success is hiring not only intelligent but inventive, laser-focused and highly efficient individuals. Across all departments; trading, quantitative research and development alike, Da Vinci is made up some of the sharpest minds and most passionate players in the industry. We are non-hierarchical and support employees in exploring their interests and strengths, placing no limit on personal growth.

DA VINCI

DOJO Tech

We're **Dojo** — the UK's No.1 payments provider.

Our technology powers payments for over **150,000 businesses**, helping them deliver faster, smarter, and more seamless customer experiences. From independent cafés to leading restaurant chains and retailers, Dojo gives business owners the tools to **get paid quickly, track performance in real time, and grow with confidence.**

What We Do

- **Payments:** Lightning-fast, secure card machines built to keep business moving.
- **Software:** Powerful dashboards and insights that help businesses understand sales and performance at a glance.
- **Customer Experience:** Simple, intuitive tech that makes every payment effortless — in-store, online, or on the go.

Our Mission

To help businesses thrive by removing the friction from payments and giving them back the time to focus on what matters most — their customers.

At Dojo, we combine cutting-edge technology with exceptional service to set a new standard for business payments in the UK.

DOJO

Find out more at: www.dojo.tech

DRW

DRW is a diversified trading firm with over 3 decades of experience bringing sophisticated technology and exceptional people together to operate in markets around the world. We value autonomy and the ability to quickly pivot to capture opportunities, so we operate using our own capital and trading at our own risk.

We trade a variety of asset classes including Fixed Income, ETFs, Equities, FX, Commodities and Energy across all major global markets. We have also leveraged our expertise and technology to expand into three non-traditional strategies: real estate, venture capital and cryptoassets.

Stop by to learn about our internship and New Grad opportunities within Quantitative Trading, Quantitative Research, and Software Development.

Find out more at: www.drw.com/work-at-drw/interns

G-Research

G-Research is a leading quantitative research and technology firm, with offices in London and Dallas. We are proud to employ some of the best people in their field and to nurture their talent in a dynamic, flexible and highly stimulating culture where world-beating ideas are cultivated and rewarded.

Find out more at: www.gresearch.com/vacancies/

GSA Capital

With offices in London and New York, GSA combines a world-class proprietary platform with innovative thinking to develop and deploy systematic and process-driven investment strategies across all asset classes, geographies, and timescales. We are a collaboration of approximately 150 people. Over 60% of our staff work in research or on developing technology necessary to enable and monetise our research. We are an eclectic mix of mathematicians, scientists, programmers, economists, and a great deal more. At GSA we reward people based on merit and excellence, not necessarily on experience. We avoid the bureaucracy of larger organisations and keep our management structures flat. Decisions are made efficiently; changes are implemented quickly. People who work here enjoy a culture of trust, innovation, and scientific rigour. It is a friendly, open place where people are motivated because they enjoy what they are doing.

Opportunities available: Quantitative Strategists, Software Engineers, Algorithm Developers

Graduates Sought: Students of all academic levels from STEM disciplines

Vacation work: Internships available for penultimate year Undergraduate students as well as Masters and PhD students

Sponsorship: We offer sponsorship for suitable prospects

Find out more at: www.gsacapital.com

Hudson River Trading Europe

Hudson River Trading brings a scientific approach to trading financial products. We have built one of the world's most sophisticated computing environments for research and development. Our researchers are at the forefront of innovation in the world of algorithmic trading.

At HRT we come from all sorts of backgrounds: mathematics, computer science, statistics, physics, and engineering. We're a community of self-starters, motivated by the excitement of being at the cutting edge of automated trading. We're friends and colleagues, whether we are sharing a meal, playing the latest board game, or writing elegant code. We embrace a culture of togetherness that extends far beyond the walls of our office.

Find out more at:

www.hudsonrivertrading.com/student-opportunities/

Jane Street

Jane Street is a global trading firm with offices in New York, London, Hong Kong, Singapore, and Amsterdam. Our approach is rooted in technology and rigorous quantitative analysis, but our success is driven by our people.

We are always recruiting top candidates and we invest heavily in teaching and training. Our summer internships give you a real sense of working at Jane Street full-time.

No finance experience needed. We look for a passion for critical thinking and creative problem-solving – people like you!

Find out more at:

www.janestreet.com/join-jane-street/open-roles/

LMAX Group

LMAX Group is a leading financial technology company and a global operator of institutional trading platforms. We are a team of intellectually curious problem-solvers who thrive on complexity. We offer a challenging and dynamic environment where bright minds can contribute to building cutting-edge solutions for the world's most demanding financial institutions. We actively seek individuals who are passionate about learning and ready to take on meaningful work from day one.

Find out more at: <http://careers.lmax.com/>

Mercuria UK LLP

Established in 2004, Mercuria is one of the world's largest independent energy and commodity groups, bringing efficiency to the commodity value chain with technology, expertise, and low-carbon solutions. The company established itself as a leader in the energy transition by pledging more than 50 percent of new investments toward renewables and transitional energy. The group has made significant investments in projects such as renewable power, energy storage, grid optimization, critical transition minerals recycling and environmental products. In 2023, Mercuria launched Silvania, with a \$500M capital commitment, a flagship initiative dedicated to nature and biodiversity protection and restoration.

Find out more at: <https://mercuria.com/>

Optiver

Optiver is a tech-driven trading firm and leading global market maker. As one of the oldest market making institutions, we are a trusted partner of 50+ exchanges across the globe. Our mission is to constantly improve the market by injecting liquidity, providing accurate pricing, increasing transparency and acting as a stabilising force no matter the market conditions. With a focus on continuous improvement, we participate in the safeguarding of healthy and efficient markets for everyone who participates.

Our Amsterdam office is where it all began. Over 35 years ago, Optiver's business started with a single trader on the floor of Amsterdam's European Stock Exchange. Since our 1986 founding, Optiver's Amsterdam office has grown into one of the most dynamic and exciting trading floors in Europe. Our culture reflects the Dutch capital city's progressive, innovative and inclusive nature. With its unique spirit, Amsterdam is the ideal hub for our teams to trade a wide range of products from listed derivatives to cash equities, ETFs, bonds and foreign exchange.

OxFORD Asset Management

Investing, powered by scientific excellence.

We are scientists, software engineers and mathematicians based in Oxford and drawn from around the world. Our group of exceptional thinkers, problem solvers and creators take a scientific approach, combined with outstanding technology, to invest in global markets.

Exceptional, creative people

Our people come from many different walks of life, countries, and cultures. We are free thinkers who relish working together to find enduring solutions to complex problems.

We are rational, curious, and restless for improvements. We ask questions, challenge conventions and test limits. Our people are encouraged to use their initiative and follow their instincts.

Our group has a wealth of experience, accumulated over decades of investing through market cycles and global events. Our teams are small and focused; everybody has an opportunity to make a real impact.

Together, we enjoy tackling issues creatively and with open minds.

Centre of excellence

Our offices are located in the heart of the city, surrounded by the colleges and faculties of the University. We work to the highest standards, advancing the frontiers of our field.

Find out more at: www.oxam.com

PE Limited

PE Limited is a market leader in integrated engineering software solutions, delivering state-of-the-art modelling and optimisation products, primarily to the global oil and gas, mining and renewable industries. Our cutting-edge tools support critical decision-making for all of the world's leading energy companies by integrating complex data into powerful, easy-to-use models.

Established in 1990, we have grown into a hugely successful business with more than 450 clients across the world, ranging from small consultancies to major multinational corporations. Our expansion led us to relocating our UK Headquarters from Edinburgh to Guildford in 2025, with further growth anticipated internationally.

With ambitious plans to expand into new industry sectors, this is an exciting time to join us as we grow our brand presence and broaden our impact across the energy landscape.

We are recruiting Masters/PhD students for a role involving close interaction with our structural geology & petroleum engineering specialists & activities will include: client training and support, technical consultancy, as well as business development activities that will require worldwide travel.

Come and visit our stand to find out more about our graduate opportunities!

Find out more at: www.petex.com

Qube Research & Technologies (QRT)

Qube Research & Technologies (QRT) is a global quantitative and systematic investment manager, operating in all liquid asset classes across the world. We are a technology and data driven group implementing a scientific approach to investing. Combining data, research, technology, and trading expertise has shaped our collaborative mindset which enables us to solve the most complex challenges. QRT's culture of innovation continuously drives our ambition to deliver high quality returns for our investors.

Over the years, QRT has invested in a global research and execution platform which has been deployed to cover all geographies and asset classes. This platform covers a broad spectrum from high to low frequency trading systems. We thrive at the intersection of cutting-edge technology, smart automation, and scalable processes, enabling us to move fast, think big, and deliver at scale.

We are committed to identifying and developing exceptional talent, and are inviting a new cohort of outstanding individuals to join us in the year ahead. Our internship offers a stimulating, intellectually rigorous, and high-performance environment, where collaboration is key to success. You will work alongside and be mentored by industry-leading professionals, gaining invaluable experience and positioning yourself for the opportunity to secure a full-time graduate role upon successful completion of the program.

Rebellion

Rebellion is one of Europe's most successful independent games studios, headquartered in Oxford and founded by Oxford alumni. We're best known for games like *Sniper Elite*, *Zombie Army*, and recent hit *Atomfall*, but we're more than just games. We create comics (*2000 AD*, *Judge Dredd*), publish award-winning books (*Solaris*), produce TV and film in our own studio, and build amazing tabletop games.

As a proudly independent company, we put creativity, collaboration, and work/life balance at the heart of everything we do - there's no corporate nonsense or crunch culture here. Our coders work on cutting-edge tech, from custom game engines to innovative gameplay systems, with real impact from day one.

With cutting-edge tech, a passion for innovation, and a studio culture where everybody's welcome, Rebellion is an exciting place to start or grow your career in tech. You'll work in a supportive team where your ideas matter - whether you're optimising rendering pipelines or experimenting with new tools.

If you're a curious, driven graduate who loves solving complex problems and making cool things, come and meet us at the fair.

Rokos Capital Management

Who are we?

RCM is a global alternative manager combining relative value and directional trading across global macro asset-classes to generate uncorrelated returns. Our core portfolio structure of intersecting product verticals is designed to deliver for investors in all market conditions. We have over 350 employees between our London, New York, and Singapore offices.

Why work for us?

Our people are key to our success and we believe people work best in a positive learning environment. RCM's culture is underpinned by four core values: Trusted Talent, Challenge and support, collective excellence and sustainable success. Our values capture the principles that direct our behaviour. In practice this means that every day is high energy and purposeful. We're focused on delivering success at pace. We strive for excellence, We will set high standards for you and give you access to the people, resources and experiences to help you attain them. You will be given individual responsibility within a team structure. Collaboration is at the heart of what we do. It will be demanding and fulfilling, Within a short space of time you will develop and grow.

What is the opportunity?

You will have impact from day one. Impact, pace and teamwork are what defines us - we empower our developers to make important decisions and push our technical stack forward.

https://www.samsara.com/company/careers/roles/7336002?gh_jid=7336002

The Phoenix Partnership (TPP)

TPP is a world-leader in Digital Health. From apps enabling patients to manage their own care to comprehensive hospital solutions, TPP delivers technology that connects everyone involved in healthcare delivery. For over twenty years, we have been applying the most advanced technology to provide a safe and secure environment to deliver care. Our aim is to improve access to healthcare data, making sure it is available whenever and wherever it is needed. We want to help people make the best use of that data, to empower clinicians and citizens, and to create the healthcare systems of the future.

TPP has been consistently recognised as an outstanding graduate employer. Since 2017, we have consistently featured in The Job Crowds' "Top Company for Graduates to Work For", and were the overall winners for 2024 in addition to awards for 'Best Salary', 'Benefits' and 'Responsibility'. We have also been consistently named in the Times Top 100 Graduate Employers list.

We value natural ability, enthusiasm and the potential to learn over direct work experience. As well as a great job, we will provide you with an excellent starting salary, fantastic benefits, and outstanding annual pay reviews.

The Trade Desk

The Trade Desk is leading the way to the future of marketing by changing how advertising is bought and sold. Working with the largest brands and agencies around the world, our technology platform helps consumers discover products they want by enabling advertisers to effectively target and reach them on the right channels at the right time.

Employees join The Trade Desk to discover opportunity, contribute to our customers' success, and be part of building the future of marketing. At our award-winning workplace, you'll have the opportunity to work with creative, compassionate, and collaborative colleagues that share a passion for making the internet better for all – a combination that simply can't be beat.

Our goal? To bring unparalleled sophistication to online advertising. And although we're a technology platform, it all starts with our team.

Our engineers are agile and build against the full stack. They bring new ideas to the table and work shoulder-to-shoulder with business and product to produce tech that was recently recognized by Forrester Research as "a better option for buyers." Our media traders have degrees in economics and statistics from top universities and many made the jump into advertising from careers on Wall Street. They're numbers people with a passion for pivots, and always up for a raucous session of ping pong. Our sales and accounts teams are advisors and strategists. They're deep on the details of our tech and a whole lot of fun at happy hour.

Sound like the kind of people you'd like to spend your days with? We invite you to come make an impact.

Tower Research

Founded in 1998 by Mark Gorton, Tower Research Capital is a trading and technology company that has built some of the fastest, most sophisticated electronic trading platforms in the world.

Tower Research Capital has assembled a world-class team from the top educational and research institutions, and is currently hiring for a number of challenging positions across quantitative trading, engineering, and support functions.

A career with Tower is a chance to not only become an expert in the quantitative trading industry, but to shape its future alongside the people who are building it from the ground up. Our flat organizational structure means that all teams interact closely with Tower management and have the opportunity to influence new projects.

Entrepreneurial spirit is embedded in our DNA. Working here means that in collaboration with the bright minds around you, you will be expected to tackle challenges old and new by thinking and learning at every step of the way.

Find out more at: <https://tower-research.com/>

Uncountable Inc.

Uncountable's mission is to accelerate R&D by order of magnitude. Our founding team of MIT and Stanford engineers bring expertise in software development and data analytics.

Uncountable is an industry-leading provider of cloud-based software designed to help scientists, engineers, researchers, and developers streamline and automate their R&D processes by centralizing lab and experiment data in an end-to-end platform.

Uncountable works with some of the world's most reputable organizations across materials, chemicals, life sciences, pharmaceuticals, food & beverage, agriculture, and consumer goods industries. R&D organizations around the world partner with Uncountable to innovate faster and more intelligently.

Working at Uncountable may be a different experience from what you're used to. If you're looking for a role that's challenging but also offers tremendous opportunities to make a direct impact on our organization's success, Uncountable may be the right place for you.

At Uncountable, we pride ourselves on having a team of individuals driven by our fast-paced environment and working both nimbly and exceptionally quickly. People at Uncountable are kind, low-ego, resourceful, passionate, and hard-working. As an organization, we foster a culture of collaboration with shared ownership in our success.

If you're ready to explore your limits, grow beyond them, and make an impact, check out our open positions, today!
